**TRANSMITTAL LETTER
Information Disclosure Statement**

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicant discloses herewith non-patent literature which he believes may be material to the examination of this application and in respect of which there may be a duty to disclose under 37 CFR § 1.56. The Examiner is respectfully requested to review and consider the cited information.

A list of non-patent literature is set forth on the attached Form PTO/SB/o8b, and copies of the items are enclosed. Item 41 includes correspondence between applicant and the PTO in this application that does not appear on the PAIR system. Therefore, applicant provides this item for completeness of the record. Item 42 is recent prosecution activity in a related continuation application.

According to applicant's reading of the PAIR system, the Information Disclosure filed by applicant on November 19, 2002 (present on the PAIR system) has never been initialed and returned (or refused consideration) by the Examiner. Thus, applicant

requests that the Examiner either update the PAIR entries and/or review and consider the previously cited information if that has not yet taken place.

While the literature disclosed herein may be “material” pursuant to 37 CFR § 1.56, this is not intended to constitute an admission that any of the patents or non-patent literature are “prior art” for the present invention. Further, the filing of this IDS shall not be construed to mean that a search has been made or that no other material information exists.

The Examiner is invited to contact the undersigned attorney by telephone or email should there be any questions.

Respectfully submitted,

Date: 04/18/2011
